C.V. Subrahmanya

25/5/19

Dr. S. Aravind Kumar AR

**1.05/19**  
**RESPONSES BY COMMITTEE TO QUERRIES / COMMENTS FROM DW OWNERS - A & A'S COMMITTEE**

Sl No	DW No	Name of Owner	Sub Sl	Concerns expressed	Reply of the committee
1	24	Smt K Indira Reddy	a	The questionnaire is totally biased and therefore these questions.	There is no bias in the questionnaire. Most of the DWs go for ward - arbitrary plan structure. Hence, going on presently with the W.P. If that is the basis to give an W.P. by the Govt a pattern of lots and layout's to go to go for ward for consideration each - each with suggestions rather than creating a case for W.P.
			b	When we bought our houses, we bought them <u>knowingly</u> our requirements of our families and rules of living here. Keep it going that way.	Requirements of families change with time. Rules are made & changed as per circumstances of each DW. Construction of India is understood as change in development and growth. Hence, change is a must, but we should set the rules. That is the purpose of the Constitution.
			c	Alterations could be many and are difficult to resolve with this survey	Already addressed in the recommendations
			d	If we would like to live here differently, we need to look at for a Quantum change	Already addressed in the recommendations
2	25	AVM S Pingali	a	I believe there should be no changes externally to alter the facade	Already addressed in the recommendations
			b	Allowing any of the changes is not in the spirit of keeping this colony unique.	Allowing changes in form by keeping the colony unique is the respect / regards as in the recommendations. It is the BDA's duty to ensure that uniqueness is not lost.
			c	Internal changes to cater to the individual requirements may be permitted	Already addressed in the recommendations
3	35	Col MVR Rao	a	Garage: Should be to the requirement of the DW Owner including external modifications. Extra Garage should be used exclusively for garage only and also maintained	Already addressed in the recommendations
			b	Lift: Instl lift within exclusive area so there should be two lifts for a block is in <u>exclusive area</u>	Already addressed in the recommendations
			c	If extra room is rented out then full maintenance to be charged	Already addressed in the recommendations
			d	There should not be any restriction to modify a DW within certain % of plinth & covered area & within GDA norms	Already addressed in the recommendations
			e	Parents & children with grand children should be treated as 1 family	Already addressed in the recommendations
			f	Any additions / modifications to a DW should be within the exclusive area of that DW	Already addressed in the recommendations

*AS*

*for A & A's Committee*

3	32	Shri P. Repetier	a	Why is there no mention of uniform exterior painting, when we talk of uniformity / similarity	This was discussed in AGA. We considered for uniform painting, the best way to do so was to have requirement say 5 to 10 yrs depending on longevity of external paint. For this there has to be consideration from all the owners after every type of the external surface area is measured and proportion of coating fixed accordingly.
			b	Vastu: I do not believe in Vastu. My convenience is of paramount importance. When His honour said this, there was his wife, family friends. Choice of the Owner prevails, not the association. Privacy is being questioned	Already addressed in the recommendations.
			c	Multi-Minor Halls: Let an architect suggest with 2 layouts which can be approved by the JVV Owners so that such alterations can be according to the standard plan	Already addressed in the recommendations.
			d	Changes to front elevation of BH should be minimal	Already addressed in the recommendations.
			e	Increase in number of floors not agreeable	Already addressed in the recommendations.
			f	Change in plot area as was 11/6, even occupying one's own peripheral land	Already addressed in the recommendations.
			g	beyond parking 11/6 norms should not be allowed	Already addressed in the recommendations.
			h	One family only for one BH	Already addressed in the recommendations.
			i	Changes without BH be permitted subject to (i) no change in plot area (ii) subject to satisfying building stability etc per construction norms	Already addressed in the recommendations.
			j	Common spaces are common property and cannot be appropriated even at a cost or encroached upon. They serve as lung spaces & should not be disturbed	Already addressed in the recommendations.
			k	Post unauthorised construction be regularised after removing norms & penalties applied by Municipal authorities with additional penalties for violating JVV rules	Already addressed in the recommendations.
			l	Standing committee be appointed for regularisation and penalty	AGA may decide.
			m	recommendations for final approval by AGA	
			n	The Standing committee may handle request for future changes	AGA may decide.
			o	"Due to poor response ATRHB was compelled to sell this to civilians against the rules of ATRHB". Are you castigating civilians or ATRHB and for what indeed.	This is in the light that 1911's are made to follow. But in circumstances rules cannot be followed and need changes. Hence FVW/AGA rules/ bye laws need to be changed as per aspirations of the BH owners on a consensus basis. No castigation on any.
6	30	Shri B. Mahalingam	a	Some serious in the colony that need attention	

Shri

Dr. An. Subramaniam

7	52	Shri VB Reddy	a	Vehicle parking on streets	BOMs may consider this issue. Please make a marking of white line on all roads, beyond which vehicles will not protrude and strictly vehicles should be within the boundary line. Action to deflate the vehicle two times [ by security guard] and subsequently to inform traffic police to tow the vehicle away. Notice of wrong parking be given to the DU Owner / Tenant and recorded for info to traffic police.
8	53	Smt Vijaya Laxmi	b	Allocation of Commercial and Political Offices in their respective spaces	No Commercial activity is permitted in the Colony. Notice be issued to shift the political party from the colony. Alternatively, Location in commercial space can be provided
9	58	Cmde V Kumar	a	Q no 10 is worded to give approval / agree for change of front elevation. Not in order. No elevation change in front	Q No 10 is not biased. You could choose "NO". Already addressed in the recommendations on front elevation.
			b	Family word is to be defined	Already addressed in the recommendations
			c	The sample answer sheet prepared by the committee is ultra vires to the survey and tends to influence members to the committee's views and hence the entire survey is illegal and unconstitutional.	Sample Ans sheet not biased. BOM's Officiating President said couple of DU Owners informed him that they do not know how to answer QUESTIONNAIRE. Hence Sample ANS.
			d	Q No 24 does not give choice for yes no on vastu	Q, NO 24 Sub Q's have choices
			e	Q No 25. You cannot condone unapproved alterations	It is the majority view whether to condone or otherwise
			f	An independent unit is not defined. It can lead to misinterpretation and wrong results to the survey / board findings	Colony independent units are well defined
			g	Family must be defined and must include family of children.	Family defined in RECOMMENDATIONS.
			a	Disturbances in DU's due to common walls	Many points are already addressed in the recommendations. Being group housing scheme, the DU's before allotment / purchase was known to the DU Owner [DU with common wall]. Depending on his / her priorities the property needs to be purchased.
10	69	Mrs B Mary Jecinta	b	Increase the size of DU's up to GF + Two floors	Property is purchased on "as is what is basis" and needs to be maintained as per the Bye Laws of the colony. Hence, Multiple Floors beyond Ground + First Floor is not permitted. Enjoy the greenery and other advantages of the colony.
			c	Ground Floor should exclusively be used for parking	
			d	There should be setback of one meter around the house such that ventilation & peace is maintained	
			e	The above two floors can be owned or rented to one individual family (as per individual requirement)	
			f	The DU cannot be rented to multiple families or used for commercial spaces	
			g	It would be feasible that it could be any front elevation of the DUs making sure respected individual maintain uniformly	

Me

A.V. Subrahman

11	87	Wg Cdr V Gouripati	a	Asks to Plinth of Multi Storied Flat by utilising undivided portion of land. Dtl Owners are occupying undivided portion of land.	Flat Dtl Owners have land registered over and above the land their Dtl block is resting on. Hence, a small portion of land contiguous to the Dtl could be considered as the land belonging to the Block for installation of Lift on the front side and rear side. It is the extended portion of balcony of above floors being closed below and making the block rectangular.
12	153	Aruna Kuman	a	Our colony is well known for its unique construction, firm discipline, beautiful greenery, capable security and water supply. Please see that they are not disturbed at any cost. We enjoyed the luxury of having a plumber, electrician & helpers within the office premises for some years. Over a period of time you are to accept some changes in our day to day life. Each individual is different from another. But everyone prefers a peaceful and comfortable life. Our colony is the best to provide it. All are working hard by devoting your time for the welfare of the residents of our colony.	Appreciation only
			b	Request you to take proper action to destroy PESTS and MOSQUITOES all over the colony as healthy living is important to all apart from comfort.	BOM's to take action on a weekly basis, year on year.
13	157	Shri Vijaya Muralthy	a	No Modifications - Additions and Alterations from that handed over by AFHNB is agreed to.	Already addressed in the recommendations
14	158	Wg Cdr Pda Rao	a	The limitation of the committee's jurisdiction should be defined. I could offer some opinion if the terms of reference are known.	Terms of reference are spell out in the preview to the Questionnaire sent.
			b	Any modifications should be in the confinement of state.	
			c	Modifications are need based and individual.	
			d	In any case it is felt that "layade" and its congenity of the colony should be maintained.	Already addressed in the recommendations
			e	Have you seen the drawings - no one unable to find one, then including in the drawing sent by AFHNB.	
15	242	Wg Cdr Thomas John	a	Modifications of Dtl as handed over by AFHNB is recommended to cater to the requirements of additional rooms, floors, garage etc. and accordingly allocation of available area within each Dtl to meet these requirements needs to be considered.	Already addressed in the recommendations
			b	To cater to old age requirements, provisioning of lift and garage for car park within the available space of each Dtl is recommended.	Already addressed in the recommendations

*gac*

*GN Subrahmanya*

16	253	Capt Narendran ath D	a	Once GHMC // local Authority concerned has approved a specific plan for a building any other house in JVU, any Owner association will not have any authority to stop this construction unless otherwise it is against the laid down rules and regulations	GHMC approves individual plans as submitted with norms of setbacks, road width, domestic / commercial etc. We in ANHS need to follow the group housing scheme where there is no set back on one or both sides as the case may be. The committee is set to lay the guide lines so that there is a uniformity, in giving NCC for Modifications
			b	Concern is in drainage of the colony as volume now will be very different and hence may become a problem issue, so will be the power & water requirement.	Already addressed in the recommendations
17	277	Gp Capt AS Rao	a	Restricting of voting for only one YES, is not understood as other options are also relevant. The NOTE below the title of the Questionnaire, limits the scope of the individual to give his opinion on various aspects mentioned. The option of individual on all choices needs to be considered.	Options given are mild, moderate and extremes also. Your choice indicates your best preference. Coming to a conclusion with too many Yes's does not come to a conclusion as what one is looking for.
			b	Since A&A's are individual choices & the scope being very wide, a Questionnaire with this format may not be able to obtain the required data. Notwithstanding an earnest beginning has been made and scope may be widened.	The preface of the Questionnaire gives scope for DU Owners to express their suggestion on how to go about and could also add additional Questions & choice answers. No repeat not a single DU owner has come as to how to go about & process. Even the simple EAMCET type Q & A, Owners did not get time to answer. Repeatedly communicating with them, helped in achieving above 80% responses.
18	325	FR Lt Gauri Shankar A	a	Demolish all OLD houses and Flats fully and make three or Four large 20 Flus floors apartments. Present houses, flats, infra etc became pretty old and huge maintenance costs go every year. We all know there are tons of reptiles, broken pipes, large trees roots under our houses and infra. This land needs a huge makeover from the foundation too. I know It is difficult to plan modifications housewise too.	Firstly, more than 80% of DU Owners do not suggest Demolition of one or more DU. Secondly, The JVH/DWA DUs will last for almost 100 years and is a unique construction with plenty of greenery. Any group of house / flats have their own issues. Not one multistoried buildings of 20+ floors charge anything less than 5000 to 8000 towards maintenance. We are the lowest with such large group of houses. Issues if any, will be tackled by BOM's in correct spirit

*AK*

*G.V. Subrah*
