

Circular 4/20-21
PET ANIMALS-DOG MENACE

1. During my first circular I have briefly mentioned about the precautions to be taken by residents owning dogs while discussing about cleanliness. Any individual getting his pet dogs with leash for morning walk must have a carry dog poop bag to pick up dumplings and levy of penalty if failed to do so.
2. Unfortunately, the seriousness of the matter has been lightly and some of the Dog owners are becoming argumentative. Now the Board has decided to implement the GHMC Guidelines for keeping the pet dogs.
3. It is necessary to register all the pet dogs under GHMC limits. The Application No VT002 is available on line. The enclosures for this registration include No Objection Certificate from neighbours and Health Certificates from Veterinarian. A grace period of one month is given to all the dog owners to complete the registration process.
4. Regarding stray dog menace, we have approached GHMC authorities and sterilisation process by them is going on.
